

Aurelio Castro
Geographic Mapping Technologies Corp.

Mr. Castro possesses a bachelor in science from the University of Puerto Rico. As part of his academic program during this period he was involved in different investigations in the Instrumental Chemistry Laboratory under Dr. Vasil Vassos guidance. He also participated in investigations in the Remote Sensing laboratory in Center for Energy Studies. He possesses a master degree in Management Information Systems. For many years he was teacher assistant for Remote Sensing and GIS courses in the Environmental Science Program at the UPR. By 1990 he became a professor of the mentioned courses in the same faculty of UPR.

From 1989 to 1996 he was the director of the GIS Office at the Planning Board of the government of PR. In 1997 he founded his own corporation, Geographic Mapping Technologies. At present he divided his professional career between his own business and his academic duties as professor in the Graduate School of Planning in the UPR.
